Professional Experience

Senior Financial Analyst, Global Systems & Planning · Atlassian

Jul 2025 – Apr 2026

Full Time

- Managed Sales and Finance data alignment and enhancement initiatives, including forecasting/data model enhancements and data quality analytics.
  - **Drove 86% → 96% alignment** between Sales and Finance systems by building a source-of-truth schema — no such schema had existed prior.
  - **Developed a machine learning model** for matching Salesforce records with the financial system of record.
  - Designed and built dashboards adopted for systems alignment reporting, delivered to global executive leadership in month-end and rolling 4-quarter forecasting processes.
  - Designed and delivered an urgently requested **refund segmentation enhancement** to Atlassian's high-touch data models, concurrently managing compensation clawbacks and future refunds reconciliation.
  - **Championed AI adoption**, integrating AI into personal workflows and developing roadmaps for Agentic AI solutions to key FP&A problems.

Revenue Analytics Manager, APAC · ResMed

Jan 2025 – Jul 2025

Full Time

- Expanded from ANZ to lead analytics capabilities across the APAC business, partnering closely with Provider and D2C FP&A/finance teams.

Analytics Lead, ANZ · ResMed

Dec 2023 – Jan 2025

Full Time

- Led development of analytics capabilities for the ANZ business in close partnership with Provider and D2C FP&A/finance teams.
  - Sourced data from Snowflake using advanced SQL, tailored for varying contexts across analytics, reporting and process improvement projects.
  - **Individually rebuilt** the ResMed ANZ Wholesale sales reporting data source — delivering a step change in analysis agility, budgeting capabilities, and scope for linking device/app diagnostics and usage data to sales results.
  - **Delivered a business-first DTC customer data platform** (conversions analysis) — an actionable, unified dataset providing visibility on revenue/patient outcome opportunity at every step of the patient journey.
- Other notable achievements:
  - Built dashboards that (1) inform business decisions with actionable insights, (2) measure and predict quality of care, (3) report on performance, and (4) model opportunities with ResMed customers.
  - **Designed and led Tableau training sessions** across business functions.

Commercial Business Analyst, ANZ · ResMed

Jun 2022 – Dec 2023

Full Time · Role expanded Dec 2022

- Awarded ResMed ANZ 2022 **"Rookie of the Year"**.
- Awarded ResMed ANZ FY2023 **"Wholesale Sales Innovation Award"** for work on ResMed ANZ's largest government contract — delivering a step change in growth and patient care driven by data.

Consulting | Summer Intern & Analyst · NineSquared

Dec 2021 – Jun 2022

Part Time (while completing Master's degree)

- Contributed to the economics consulting team by:
  - Constructing an economic analysis of the global "net-zero" mega-trend for NineSquared's Future of Mobility project.
  - Researching the global and domestic unmanned aerial vehicle (UAV) market.
  - Assisting with business process improvements.
- Upon successful completion of the internship, the firm asked that I remain with the team as a part-time Analyst.

Consulting | Systems & Processes Analyst · AUSA Hoops

May 2021 – Dec 2021

Contract (while completing Master's degree)

- Updated core business systems (CRM, marketing platforms, data management, customer support) and optimised reporting.
  - Provided technical support for marketing, operations, and sales teams.
  - Redesigned ways of working, communication processes, and operating processes within and between functions.

Category Analyst · **Johnson & Johnson Pacific** Sep 2019 – Nov 2020

Full Time

- Supported the category team with data analysis, business tracking, new product launch support, and category insight development.
  - Delivered category reviews, customer presentations, data analysis, growth opportunities, RGM/4P analysis and insights.
  - Maintained and updated reports, intranet site and tools used by the category team and wider business.
  - Provided new product launch project support.

Customer Development Executive (Inside Sales) · **Johnson & Johnson Pacific** Nov 2018 – Sep 2019

Full Time

- Managed ~1,200 pharmacies, building relationships and driving brand market share.
  - Assisted with the management of key state accounts, including minor wholesalers and small/medium-sized banners.
  - Provided market insights to account managers using NIS (Nielsen) and Ex-Factory data.
  - Regular data analysis to maximise team call/activity efficiency.

Education

SQL Course: Level 2A · **University of Sydney, Centre for Continuing Education** Oct 2022

Master of Applied Economics · **Macquarie University** 2021 – 2022

- WAM: 82.875
- Awarded the Department of Economics Prize for Applied Macroeconomic Topics
- Awarded the Department of Economics Prize for Economic Development

Bachelor of Business Administration & Bachelor of Arts (Economics) · **Macquarie University**

2015 – 2018

- GPA: 3.16 / 4.0
- Awarded the Department of Marketing and Management Prize for Leadership in Management
